

## **READ THE MHRN SUMMER 2018 NEWSLETTER!**

### **New MHRN Findings**

- Using sequential analysis to rapidly assess new health policies
- How sensitive is the PHQ-9 when patients report their thoughts of death or self-harm as, “not at all”?
- Are patients with chronic non-cancer pain more likely to develop depression if they are prescribed opioids?
- Long-term prescription opioid use, and new-onset depression – are there gender differences?

### **Project News**

- Two MHRN posters sweep the awards at the April 2018 HCSRN Conference
- What if researchers could create customized evidence-based treatment protocols to improve mental health?
- Highlights from 24th Mental Health Services Research Conference: MHSR 2018

### **People News**

- Who is the recipient of “The Biggest Reject Award”?
