

## **MHRN SCIENTIFIC INTEREST GROUP**

### **Child & Adolescent Mental Health**

#### **Goals / Mission**

Our mission is to provide high quality information to clinicians and health system administrators about how to improve mental health outcomes for children and adolescents.

#### **Research Priorities**

The Child & Adolescent Mental Health Group is working on a variety of high priority and high impact issues including: changes in suicidality associated with antidepressant utilization, creating a registry for children with autism spectrum disorders, and the pharmacoepidemiology of antipsychotic medication utilization.
