[1] estimated 35 primary care clinics
[2] Primary care provider definition may vary between delivery systems
[3] Total providers (primary care and specialty combined)
[4] Covered lives = patients with insurance coverage and/or some but not the vast majority of care data available in EMR or other medical records. Claims data only on some of this population.
[5] Covered lives in integrated delivery system (IDS): Comprehensive clinical data available in EMR, other delivery system data bases and claims data, aka overlap population.
[6] Locally created or "homegrown" EMR system
